**FEEDBACK REPORT ON MONIDIPTO**

Respected,

Madam

1. I have the honour to state that my son Monidipto Mukharjee who is a case of **ADHD (Attention Deficit Hyperactive Disorder)** is currently studying in class II of SD Vidya school and is performing exceptionally well in academics as well as in other outdoor activities. Dealing with the situation is indeed a great challenge and requires deep sense of involvement which school has accepted with warm welcome. He had been a part of your institute since nursery section and gives me immense pleasure to state that till now he is growing and developing his skills at each and every second due to the hard and endless efforts put in by the dedicated school staff. Monidipto has got excellent brain structure and his energy has been channelized in right direction by the school staff with outmost care. During the past five year, he has undergone a considerable change in his attitude, learning skills, involvement in social gatherings and other routine activities of daily life.
2. The above mentioned progress in Monidipto is undoubtedly the result of keen interest and special attention shown by each and every school staff towards him and whole hearted effort of his present class teacher Mrs Vimmi Khurana accompanied by her supporting staff Mrs Anuradha. Monidipto is silent in nature and speaks few words to express his feelings and share his thoughts. Therefore for his better understanding in academics and safety, he is being under continuous monitoring at every second by the school supporting staff Mrs Anuradha appointed by the school authority who is in fact performing her responsibility with due care and beyond our imagination. Her performance is really appreciable and praiseworthy.
3. For all above, I would like to express my heartfelt gratitude for the school management committee for the kind and positive efforts which has given my son a platform to explore him and opportunity to learn various activities for better future prospect. Lastly with due respect I would like to compliment and say thanks to the SD Vidya School management committee and Principal madam for the love, special attention and all the efficient efforts made towards Monidipto in all respect which will certainly help him to understand his surrounding and finally build his career. With warm regards

Yours faithfully,

  
(Rudra Mukharjee)
